

Breaking down the barriers to report workplace sexual harassment.

#SafeSpace is a confidential and secure online sexual harassment reporting portal for employees, accessible directly from the company's intranet.

By interacting on the portal, employees are issued a trackable case number and are assured complaints remain confidential, secure and will not be suppressed, lost or delayed.

#SafeSpace empowers employees with all the necessary resources and company policy information and always guides employees in the most appropriate manner.

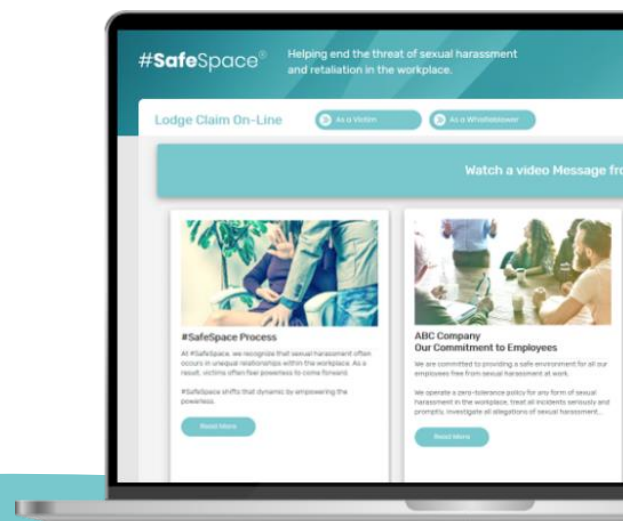

Simple and quick to activate.

#SafeSpace empowers companies to take immediate control over their claims of workplace sexual harassment, ensuring all claims are accounted for and automatically directed to the correct company official.

Claims are reported to Executive Management in real time and resolution times can be monitored alerting when actions are overdue.

Benefits.

- Reduces time to resolution.
- Reduces the chance of financial and reputational risks.
- Improves transparency and fairness.
- Provides resources for the proactive management of claims.
- Demonstrates the company has a program to stamp out sexual harassment.
- Provides employees with easy access to the most up-to-date resources and policy information.

Case Management.

As an optional extra the portal can be activated with digital case management, automated workflows and a full reporting suite.

#SafeSpace API.

Integrate in no time.

Well-documented, easy-to-use, robust and stable API's make it simple to connect and integrate the portal with a company's broader HR ecosystem and processes.

Cloud Security.

#SafeSpace is hosted on the Microsoft Azure cloud platform which has the highest security and privacy features possible and conforms to all global security standards.

Data Protection.

Compliant with General Data Protection Regulations (GDPR) and ISO 27018 for cloud privacy.
